Frame Tie

Product datasheet

View product online

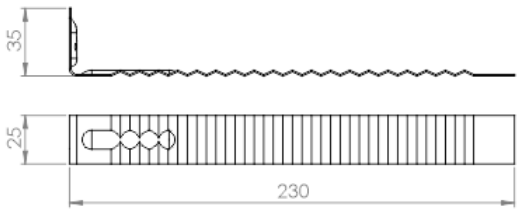
Frame tie is designed to create a strong connection between brickwork and framework in residential construction

Corrosion class	R2
Material	Galvanised Z600

Features

- Clay brick
- Multiple fixing application for different substrates
- Universal applications

Technical details



Dimension drawing. Sizes are given as A.

Fixing requirements

Metal / Timber	Cerra Multipurpose Screw hex head 10g X 35mm

For more information contact us with your project requirements.

Corrosion characteristics

R2	Galvanised Z600

Conforms to corrosion resistance set by AS/NZS 2699 / AS 3700.
